ASSISTANCE

When materials are disposed at a TSD Facility those materials shall be deemed to be vested in that facility immediately upon acceptance of such material by that facility, from the generator or transporter. The generator shall have no right to recovery nor any credit for the potential value of any substances contained in such materials furnished for disposal, except as separately agreed in writing by that facility. Disposal and recovery operations by Chemical Processors, Inc., will be in accordance with procedures approved by the Washington State Department of Ecology and the United States Environmental Protection Agency.

This is to certify that the above-named materials are properly classified, described, packaged, marked, labeled and are in proper condition for transportation according to the applicable regulations of the U.S. Department of Transportation and the U.S. Environmental Protection Agency. Signed and dated by the authorized agent of the generator:
